CREDIT TRANSFER

Credit transfer allows students to count relevant, successfully completed studies – achieved at TAFE colleges, accredited private providers, professional organisations or enterprises and universities – towards their current course or qualifications. Credit transfer may also be referred to as ‘advanced standing’

Credit transfer works in two ways:

- Students receive credit for units or modules they have previously completed and are exempt from retaking them, therefore reducing the study load.
- Students are exempt from certain introductory units but are still required to complete the total credit points or hours for the course.

SUBMISSION OF WORK

All work is to be submitted to the Trainer no later than 1 week after the end of the unit .If you require an extension of time you must discuss this with your Trainer prior to the due date. Completed work can be left at reception to be forwarded onto the relevant Trainer.

PREPARING WRITTEN REPORTS

All work submitted for assessment must be the student’s own work and presented in their own words. All sources of information must be referenced appropriately, as covered in the study skills classes. Remember that internet sites must also be appropriately sited with appropriate referencing of all sources of information included. Copy of internet information must be submitted as an appendix.

Here are some suggestions which may help you to be an effective learner. These suggestions can be used to assist you in the learning and assessment of this unit and the course in general.

Goal setting

- Setting clear goals of what you have to do and how you will achieve is an important key to success.
- Use the time you have available wisely. Plan how much time you have to study and set a reasonable goal for how much study you will do.
- Take note of the dates that your assessments are due. Write them down in your diary and include them in your goals.

Take control

- Take responsibility for the completion of your unit/course.
- Consider your previous background and experience. The skills you have developed may be of assistance to you as part of this course.
- Seek help when you need it. Don’t wait until it is too late. Early help is the best.
- Discuss your assessment tasks with your Trainer.

Practice time management

- Set up times when you will study. Plan for this regularly.
- Have all the study materials available in one location.
- Keep a diary so that you can plan effectively
- Allow time for other activities during the week and make sure you have a balance.
- Treat yourself if you complete tasks on time. Be positive.

Study effectively

- Recognise what type of learning strategy works for you.
- Identify the key issues covered in the assessment tasks.
- Start early. Plan to complete assessments before the due date so that you will not put yourself under pressure.
- Read everything carefully before commencing your assessments so that you focus on the right areas.
- Organise your learning and assessment tasks into smaller 'achievable' blocks of work.
- Focus on the unknown rather than what you already know.
- Revise and review your work regularly.

Don't forget feedback

- If you find you are getting behind please do not hesitate to contact your Trainer.

Use your knowledge

- Your course is designed to prepare you for work so look for how the information you learn in these units will assist you to do this.
- Information covered in one unit may also assist you with understanding parts of other units.
- Look for opportunities to apply your knowledge.

PLAGIARISM

What is plagiarism?

- turning in someone else's work as your own
- copying words or ideas from someone else without giving credit
- failing to put a quotation in quotation marks
- giving incorrect information about the source of a quotation
- changing words but copying the sentence structure of a source without giving credit
- copying so many words or ideas from a source that it makes up the majority of your work, whether you give credit or not (see our section on "fair use" rules)

To avoid plagiarism and its penalties, students are advised to note the following:

- If you quote from someone else's work (for example from workbook, textbooks, journals or other published materials) you must always indicate the author and source of the material.

Example from an Internet source:

Source: <http://www.plagiarism.org/article/what-is-plagiarism> Published May 18, 2017
Accessed 01/07/2017

- You should name sources for any images, graphs, tables or specific data, which you include in your assignment.
- You must not copy someone else's work and present it as your own. This includes group work.
- All answers must be written in your own words using paraphrasing.

A full copy of Murray ACE's plagiarism policy is available on request from administration.

What is paraphrasing?

Paraphrasing involves taking a set of facts or opinions and rewording them. When paraphrasing, it is important to keep the original meaning and to present it in a new form. Basically, you are simply writing something in your own words that expresses the original idea.

Here are some sentences that have been paraphrased:

Original: Mary lived through an era of liberating reform for women.

Paraphrase: *Mary's life spanned years of incredible change for women.*

Original: Giraffes like acacia leaves and hay and they can consume 75 pounds of food a day.

Paraphrase: *A giraffe can eat up to 75 pounds of acacia leaves and hay every day.*
